BBR Performance Announces Dealership and Authorized Rebuild Service for Integra Shocks by Port City Racing

December 9, 2005 Marion, PA – BBR Performance is now a dealer and authorized rebuild center for Integra shocks by Port City Racing, offering in-house shock dyno services, rebuilds and repairs. Integra Shocks, introduced last year, have quickly become the most sought after shock in dirt racing. Their advanced engineering and in-house machining allows for more precise tuning of the race car set-up and repeatability when adjusting the shock. Integra shocks are available in both fixed/split valve monotube gas as well as the double adjustable remote reservoir gas designs.

Brian Daugherty and Scott Keyser of Port City are very enthusiastic about the new dealership with service capability. “Will (Rowe) has been around the dirt racing forever and his reputation speaks for itself”, stated Daugherty. “The new state of the art BBR facility will allow for Integra shock customers to have quick and convenient service right in their own area.” Brian Booze of BBR Performance added, “We are very excited about carrying the Integra/Port City line of racing products in our store. The knowledge that both Brian and Scott can bring to our customers is unparalleled in the industry today.”

The BBR Performance Center is located just north of the intersection of Route 11 and Route 914, marked by the CEBCO Village Mart. It is one mile west of Exit 10 off Interstate 81 North. For more information, visit www.BoozeBrothersPerformance.com.
